

Justin Danner – Senior Frontend Developer

Oregon, United States | +1 760 983 3605 | justindanner96@gmail.com

Summary

Innovative and passionate Frontend Developer with over 7 years of experience in designing and implementing user interfaces using React. Proficient in modern JavaScript frameworks like Vue.js and Angular. Adept at spearheading the integration of Blockchain technologies, leveraging Web3.js and Ethers.js to deliver decentralized applications (DApps). Seeking to leverage my technical expertise and creative problem-solving skills to contribute to the success and growth of a forward-thinking company.

Work Experience

Senior Frontend Developer

June 2023 – June 2024

Questify, Remote – CA, US

- **Led a full stack team** in developing a high-performance betting website on Sei Blockchain, integrated smart contracts using **Web3.js** and **Ethers.js**, resulting in rapid user base growth and a **30K increase in Twitter followers**.
- Spearheaded the development of a robust front-end using **React**, implementing **Redux** for state management and employing **React Hooks** for improved component lifecycle management, which contributed to a 50% increase in user session duration.
- **Collaborated** with UX/UI designers to integrate complex designs into a responsive web interface, ensuring cross-device functionality and maintaining over **95% user experience consistency** across key browsers.
- Implemented **CI/CD pipelines** that increased deployment frequency by 200% and reduced critical system downtime by 75%.
- **Coordinated with marketing** to leverage user analytics for targeted campaigns, resulting in a 40% increase in user engagement.

Frontend Developer

May 2021 – May 2023

Knowledge Link, Remote – VA, US

- Pioneered the creation of 5+ **Angular-based e-commerce** platforms with **Blockchain payment** solutions.
- Integrated **Redux** for state management within **React** applications, enhancing UI consistency and performance, while **Vuex** implementation in **Vue.js** projects ensured reactive, maintainable codebases.
- Implemented a series of **responsive, SEO-optimized** websites using **Next.js** and **Tailwind CSS**, significantly enhancing the client's online visibility and user engagement, leading to increased traffic and customer interaction.
- Engineered and launched a **highly customizable dashboard** feature for users to track key performance indicators efficiently, which became the most used feature of the platform within 3 months of launch.
- Fostered an inclusive culture of remote collaboration and **Agile** development methodologies, steering a dedicated team of software developers in consistently delivering high-quality, robust software solutions, **on time and within scope**.

Junior Frontend Developer

May 2017 - May 2021

Advantage Media Partners, Onsite – OR, US

- Contributed to the development of a dynamic **real-time chat app** using **Vue.js** and **Firestore**, which dramatically improved user interaction and satisfaction for our online platform, leading to a notable increase in daily active users.
- Maintained and enhanced legacy **AngularJS** applications, ensuring seamless operation and consistent user contentment by implementing thoughtful, user-focused enhancements and optimizations.
- Enhanced the **e-commerce** platform's capabilities by integrating a comprehensive suite of **third-party APIs**, which broadened payment options, enabled seamless social media interactions, and streamlined inventory management processes.
- Collaborated with backend teams to **optimize API endpoints**, achieving a 20% reduction in frontend loading times, thereby significantly improving the overall user experience and contributing to a lower bounce rate on the site.

Education

Bachelor of Science (BS) in Computer Science

Sep 2013 – May 2017

George Fox University, OR, US

Skills

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, SASS, LESS

Frameworks/Libraries: Next.js, React, AngularJS, Vue.js, Tailwind CSS, Bootstrap, Web3.js, Ethers.js
